Chemical Manufacturing

Project Summary Highlights – Web Design & Development

- Custom WordPress Theme – a custom WordPress theme was created in order to accommodate the client's specific design requirements.
- Custom document management – features were developed in order to allow the administrator to manage multiple documents such as MSDS sheets, case studies and whitepapers.
- Multi-language support – WordPress was expanded in order to accommodate multiple language websites with segmented administration, users and content.
- HTML5 animation – a custom HTML5 animation was created for the client based upon design requirements.
